SKILLS

Languages: Java, SQL, JavaScript, Typescript, Linux, python.

Frameworks & Technologies: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, J2EE, Jasper Reports.

Backend & Microservices: REST APIs, Microservices Architecture, JDBC, OOPs, Multithreading, WSDL.

Databases: MySQL, PostgreSQL, MongoDB.

DevOps & Tools: Git, Jenkins, Docker, AWS, Kafka, CI/CD, AWS, Splunk, SonarQube, gitLab, Rabbit MQ, Jira.

Frontend: HTML5, CSS3, Angular, React, RxJs, Angular material, NgRx.

Concepts: Data Structures and Algorithms (DSA), Problem Solving, System Design, Unit Testing, API Security.

EXPERIENCE

Tata Consultancy Services

June 2023 - Present

Senior Software Engineer — Java, Spring Boot, Spring MVC, J2EE, Angular, Microservices, Kubernetes, AWS — Mumbai, India

- Developing **scalable and high-performance enterprise applications** using **Spring Boot & Angular**, owning end-to-end feature development and driving critical system enhancements.
- Designed and developed **RESTful APIs and microservices** using **Spring Boot, Hibernate/JPA**, ensuring **scalability, performance optimization, and maintainable architecture**.
- Worked extensively with **Java 8 features** including **Lambda expressions, Stream API, and Collections Framework** to write efficient, optimized, and clean code.
- Delivered multiple enhancements across **Jira stories** in an **Agile SCRUM** environment, actively contributing to sprint planning, standups, and on-time feature delivery.
- Improved development productivity by leveraging **GitHub Copilot** and exploring **AI/LLM-based tools** for faster development and problem-solving.
- Worked extensively on **CI/CD pipelines, automated deployments, and multi-environment releases**, with hands-on API testing using **Swagger and Postman**.

99 Games

September 2022 - June 2023

Software Engineer — Java, Spring Boot, Microservices, Angular, MongoDB, Jenkins, Harness — mangalore, India

- Built and maintained **Java web applications** using Struts framework and Spring Boot, developed frontend interfaces with **HTML, CSS, and JavaScript**.
- Worked on database operations and SQL query optimization, improving application performance and data processing efficiency.
- Delivered a **full case study project** demonstrating end-to-end web application development, documentation, problem-solving, and scalable system design.

PROJECTS

Service Integrator Framework | Java, Spring Boot, Microservices, Spring Security, JWT, Redis, Kafka, Angular, Spring Batch, Oracle, MongoDB, Docker

- Contributed to end-to-end development of backend microservices in **Java 8 and Spring Boot** for SNB's banking application, supporting loan origination and service integration workflows.
- Implemented **Spring Security** with **JWT** for authentication and authorization, handling **role-based access** across application modules.
- Designed and developed secure **REST APIs** with proper validation and access control, integrating third-party systems via **FeignClient and RestTemplate** and with legacy **SOAP/WSDL** endpoints.
- Led the implementation of Queue Enquiry Management using JPA and **native Oracle SQL**, supporting dynamic filtering, pagination, and queue assignment.
- Worked with **Redis caching** to improve application performance and reduce database load for frequently accessed data.
- Implemented **Kafka-based** asynchronous messaging with **DLQ** handling to ensure reliable and fault-tolerant event-driven communication.
- Executed **18+ Change Requests** across the application, ensuring timely delivery and positive client feedback.

Oracle Migration Project | *Spring Boot, Spring MVC, JPA, Hibernate, Oracle, PostgreSQL, SQL, Maven*

- Working on migration of enterprise applications from **Oracle to PostgreSQL**, ensuring system compatibility and performance.
- Converted **PL/SQL procedures, functions**, and queries to **PostgreSQL syntax** and optimized execution.
- Updated **Hibernate/JPA mappings** and handled data type transformations between databases.
- Performed **SQL query optimization, indexing, and performance tuning** for improved efficiency.
- Validated data consistency, resolved migration issues, and ensured smooth integration with application layers.

ACHIEVEMENTS AND CERTIFICATIONS

- **TCS Bancs Best Performer Award**
- **AWS Certified Cloud Practitioner (CLF-01)**

EDUCATION

Sahyadri College of Engineering and Management
BE (Bachelor of Engineering) (ECE)

July 2019 – June 2023
CGPA: 9.1
